

Physics Graduation Checklist

Once a student is ready to graduate, there are departmental steps and university requirements to be followed by the dates listed below.

Due by February 15th for May Graduation or September 1st for December Graduation

- Complete the [Notification of Leave/Graduation](#) form to notify the office of your defense date, last day in the lab and your future contact information. Do not enter your current campus contact information unless you do not plan on moving for several months after graduation. NOG questions are below for reference.
- Students are responsible for scheduling a date, time and physical or virtual room location for their thesis defense. [25Live](#) can be used to book rooms in SPL; please reach out to your PI's admin to book rooms in WL or KT. Please give your [committee members](#) adequate notice when trying to schedule your defense. Defense information can now be included in your Notification of Leave/Graduation form and will be announced in the weekly newsletter.
- With the assistance of your advisor, find an appropriate outside reader and submit their name and position to the DGS for approval.

Due by March 15th or October 1st

- Provide the [Thesis Progress Report Form](#) to your dissertation committee members for signature during your defense. Forward your signed form(s) and a PDF copy of your Dissertation to the graduate registrar. See below for further Defense details.
- Review and complete the Yale GSAS [Dissertation Submission Checklist](#).
- Enter your reader information into the [Notification of Readers \(NOR\) portal](#), and notify the graduate registrar when done. All five of your readers, your PI, 3 Yale committee members, and an outside reader, need to be listed under "Reader Information" for them to receive notice of your dissertation submission.
- Submit your final dissertation to the Registrar's Office. See above for further submission guidance.

Due by April 15th or November 1st

- Students must complete their defense by April 15th for May graduation, or November 1st for December graduation.
- Reader reports are due one month after your dissertation is uploaded to NOR or by April 15th or November 1st.

Prior to leaving

- Schedule a 30-minute Exit Interview with the [Chair](#) or [DGS](#) to talk about your experience in the program. Sample Exit Interview Questions can be found [here](#).
- Update Notification of Leave/Graduation form with any new future employment or address changes.
- Confirm last day of pay with the graduate registrar.
- Notify the graduate registrar when you have returned your keys, coats, or other university provided equipment.

These deadlines have been established to allow sufficient time for readers to make careful evaluations and for the department to review those evaluations before making our recommendation to the Graduate School on degrees earned. No extensions of the deadlines will be granted. Dissertations submitted after the deadlines will be considered during the following term.

Frequently Asked Graduation Questions

Does Yale offer any resources to assist in writing dissertations?

Yes, there are resources available through the Poorvu Center to help with writing and defending your dissertation. <https://poorvucenter.yale.edu/writing/graduate/writing-through-graduate-school/dissertation-writing>

Do you have to defend your dissertation prior to submitting to the University?

No, you can upload your dissertation prior to defending. Your dissertation must be submitted to NOR by October 1st and your defense must take place by November 1st to graduate. For May graduates, your dissertation must be uploaded by March 15th and your defense must take place by April 15th.

How do I get my defense advertised?

Please fill out the notification of graduation form so that Daphne can set up your defense poster and publicize your event.

When is my last day of pay?

- Your last day of pay is your last day in the lab and should be in agreement with your PI.
- December graduates last possible date of pay is January 15th. Your health insurance will end on January 31st.
- May graduates can continue to work in the lab after graduation, up to August 31st, with their advisor's approval/funding. May graduate health insurance ends July 31st. An option to purchase August health insurance is available for those staying on campus until the end of August.
- International students last day of pay is typically May 22nd, unless an updated OPT is issued; please contact OISS for more information.

When is my last day of health insurance coverage?

Health insurance ends either January 31st or July 31st, depending on your graduation date. May graduates staying to the end of August, must inform me if they want August health coverage by June 1.

What must I do if I plan on completing my dissertation over the summer?

If you complete your dissertation over the summer and do not plan on registering for the coming fall semester, you must upload your dissertation to NOR by September 1st to avoid Fall tuition and health fees. Uploaded dissertations may still be revised up to October 1st.
