

Yale *Physics*

2023 Yale Mossman Fellowship

The Yale University Physics Department invites applications for the Yale Mossman Postdoctoral Fellowship, which is intended to support promising physicists in the early stages of their careers.

This year's fellowship will be in any subfield of physics. The fellowship provides a three-year appointment with a competitive stipend, discretionary annual research fund, and health insurance.

Yale has an active and engaged community in most subfields of physics both experimental and theoretical. The faculty of the Physics Department work in astrophysics and cosmology, atomic physics, biophysics, condensed matter, gravitational physics, nuclear and particle physics, and quantum science. More information can be found at physics.yale.edu/research.

Yale strongly welcomes applications from women, persons with disabilities, protected veterans, and underrepresented minorities. Yale is an Affirmative Action/Equal Opportunity Employer.

For inquiries about this position, please contact the committee at PhysMossmanSearch@mailman.yale.edu.

Apply at physics.yale.edu/yale-mossman by November 15, 2022.
